Sir:

I, Juan Carlos A. Marquez, represent that I am the attorney of record for the above-identified application.

The above-referenced invention has been assigned to Renesas Technology Corporation, who is the owner by assignment of the entire right and title of the above-captioned patent application. Renesas Technology Corporation is also the owner of the entire right and title to U.S. Patent No. 6,721,194 by assignment, which was the parent application (Application No. 10/287,678) of which the above-referenced application is a continuation.

Renesas Technology Corporation hereby disclaims the terminal part of any patent granted on the above-captioned patent application, which would extend beyond the expiration date of the full statutory term as presently shortened by any terminal disclaimer of U.S. Patent No. 6,721,194, and hereby agrees that any patent so granted on the above-captioned application shall be enforceable only for and during such period that the legal title to said patent shall be the same as the legal title to U.S. Patent No. 6,721,194, this agreement to run with any patent granted on the above-captioned application and to be binding upon the grantee, its successors or assigns.

No rights available under the provisions of 35 U.S.C. § 155 and 156 are hereby waived.
